LMOL Report for 2018-06-29

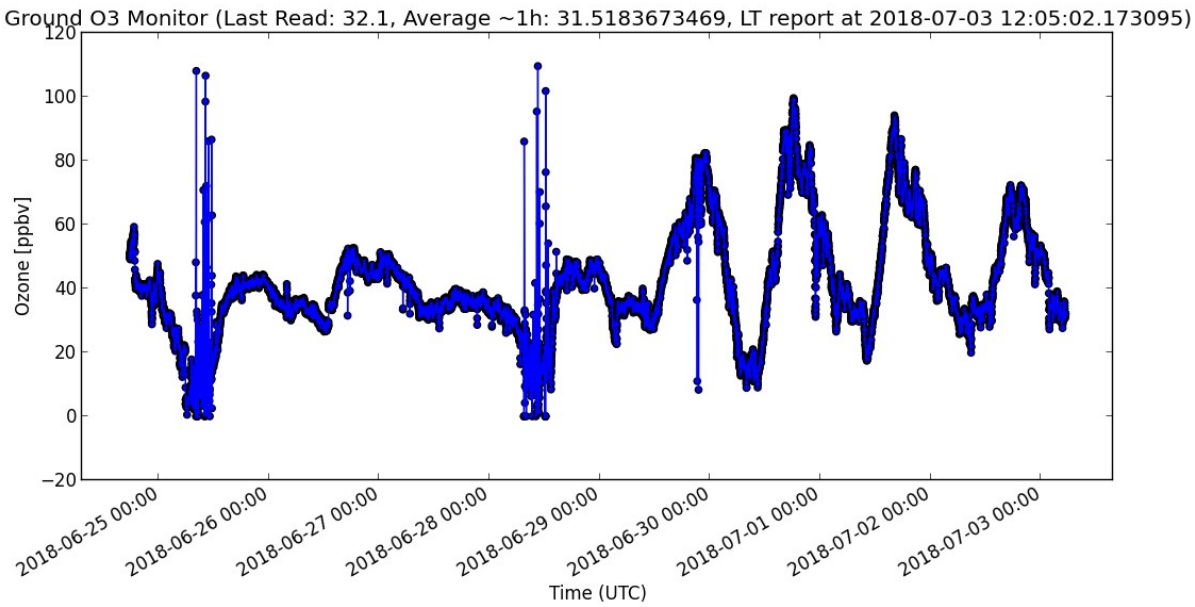
Contact: G. Gronoff
LMOL Team: W. Carrion, T. Berkoff, J. Sparrow, G. Gronoff
Operator for the day: W. Carrion

LMOL / Lidar

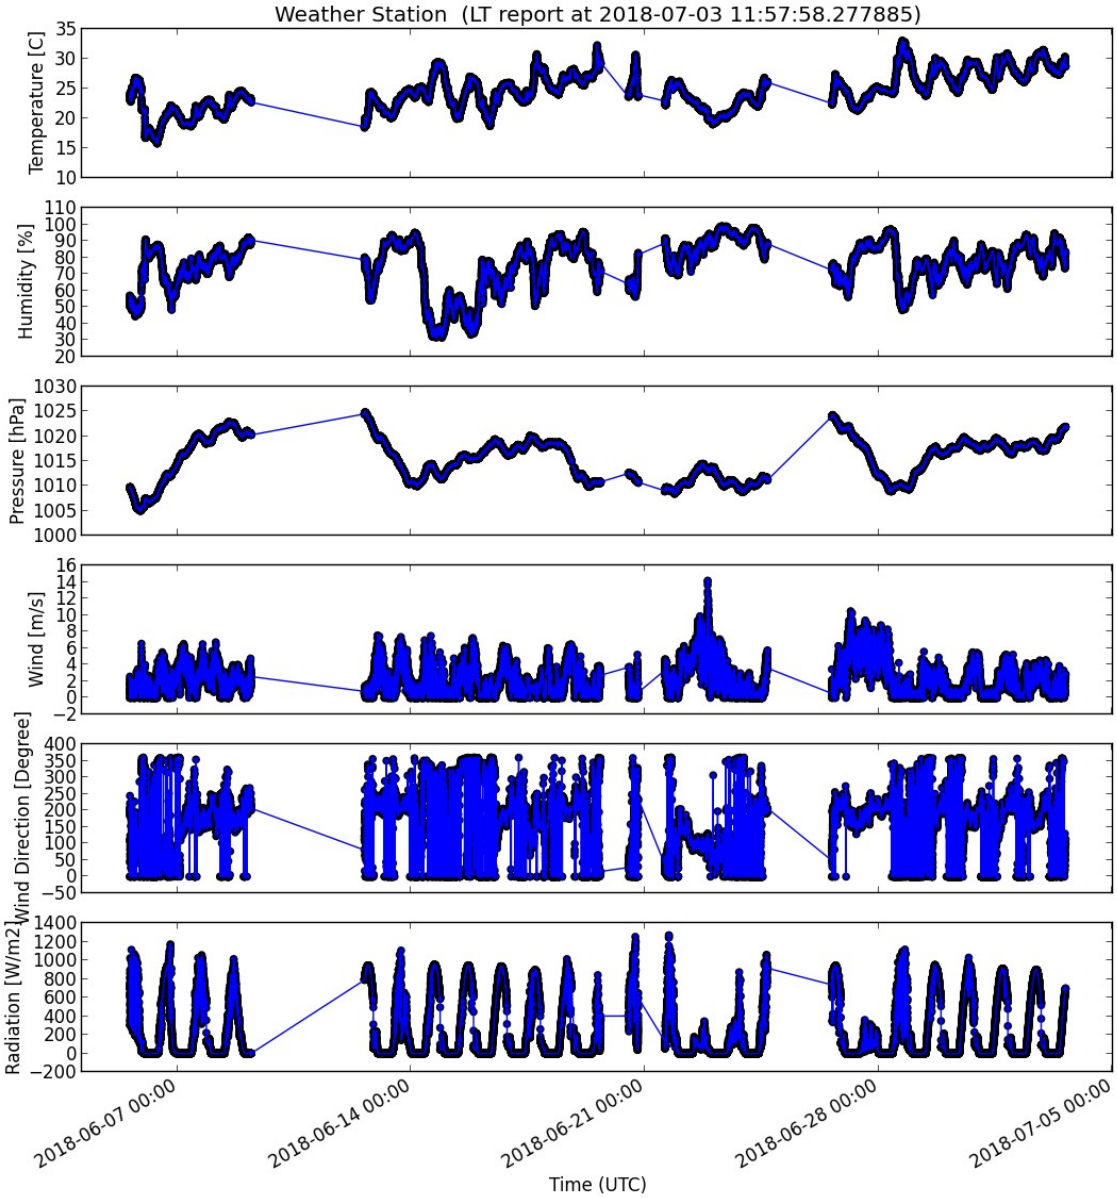
The Lidar performed nominally. See Report for July 2

LMOL / Weather Station and Ground O3

The POM data are to be validated: they are generally lower than the NOAA data, but whether it is from the instrumentation/tubing or from the location (lower altitude,shade) remains to be solved.



The Weather station performed nominally until the power outage.



Weather Station (LT report at 2018-07-03 11:57:58.277885)
Temperature [C]
Humidity [%]
Pressure [hPa]
Wind [m/s]
Wind Direction [Degree]
Radiation [W/m2]
