

# GSFC TROPOZ report for 2017 July 7 operations

Contact: [john.t.sullivan@nasa.gov](mailto:john.t.sullivan@nasa.gov)

Sonde/Lidar operators at the GSFC Trailer at LaRC: Sullivan, Twigg, Nino

**Lidar operations:** The lidar performed nominally. Sporadic cloud cover, especially at the end of the acquisitions, prevented full coverage of the time period. Data were taken between 11:15-14:50 15:40-18:00 UT. (i.e. 0715a-1400p local time). Quicklook 5-min data is below, email [john.t.sullivan@nasa.gov](mailto:john.t.sullivan@nasa.gov) for high(er) quality figure. Surface o3 compares well with the lidar 300m data, and is plotted in the lowest data bin. An o3-sonde, launched at 11:20LT is also overlaid.
