PLEASE NOTE: THIS DATA IS PRELIMINARY AND SHOULD NOT BE USED FOR ANY OFFICIAL BUSINESS.

## TROPOZ LIDAR

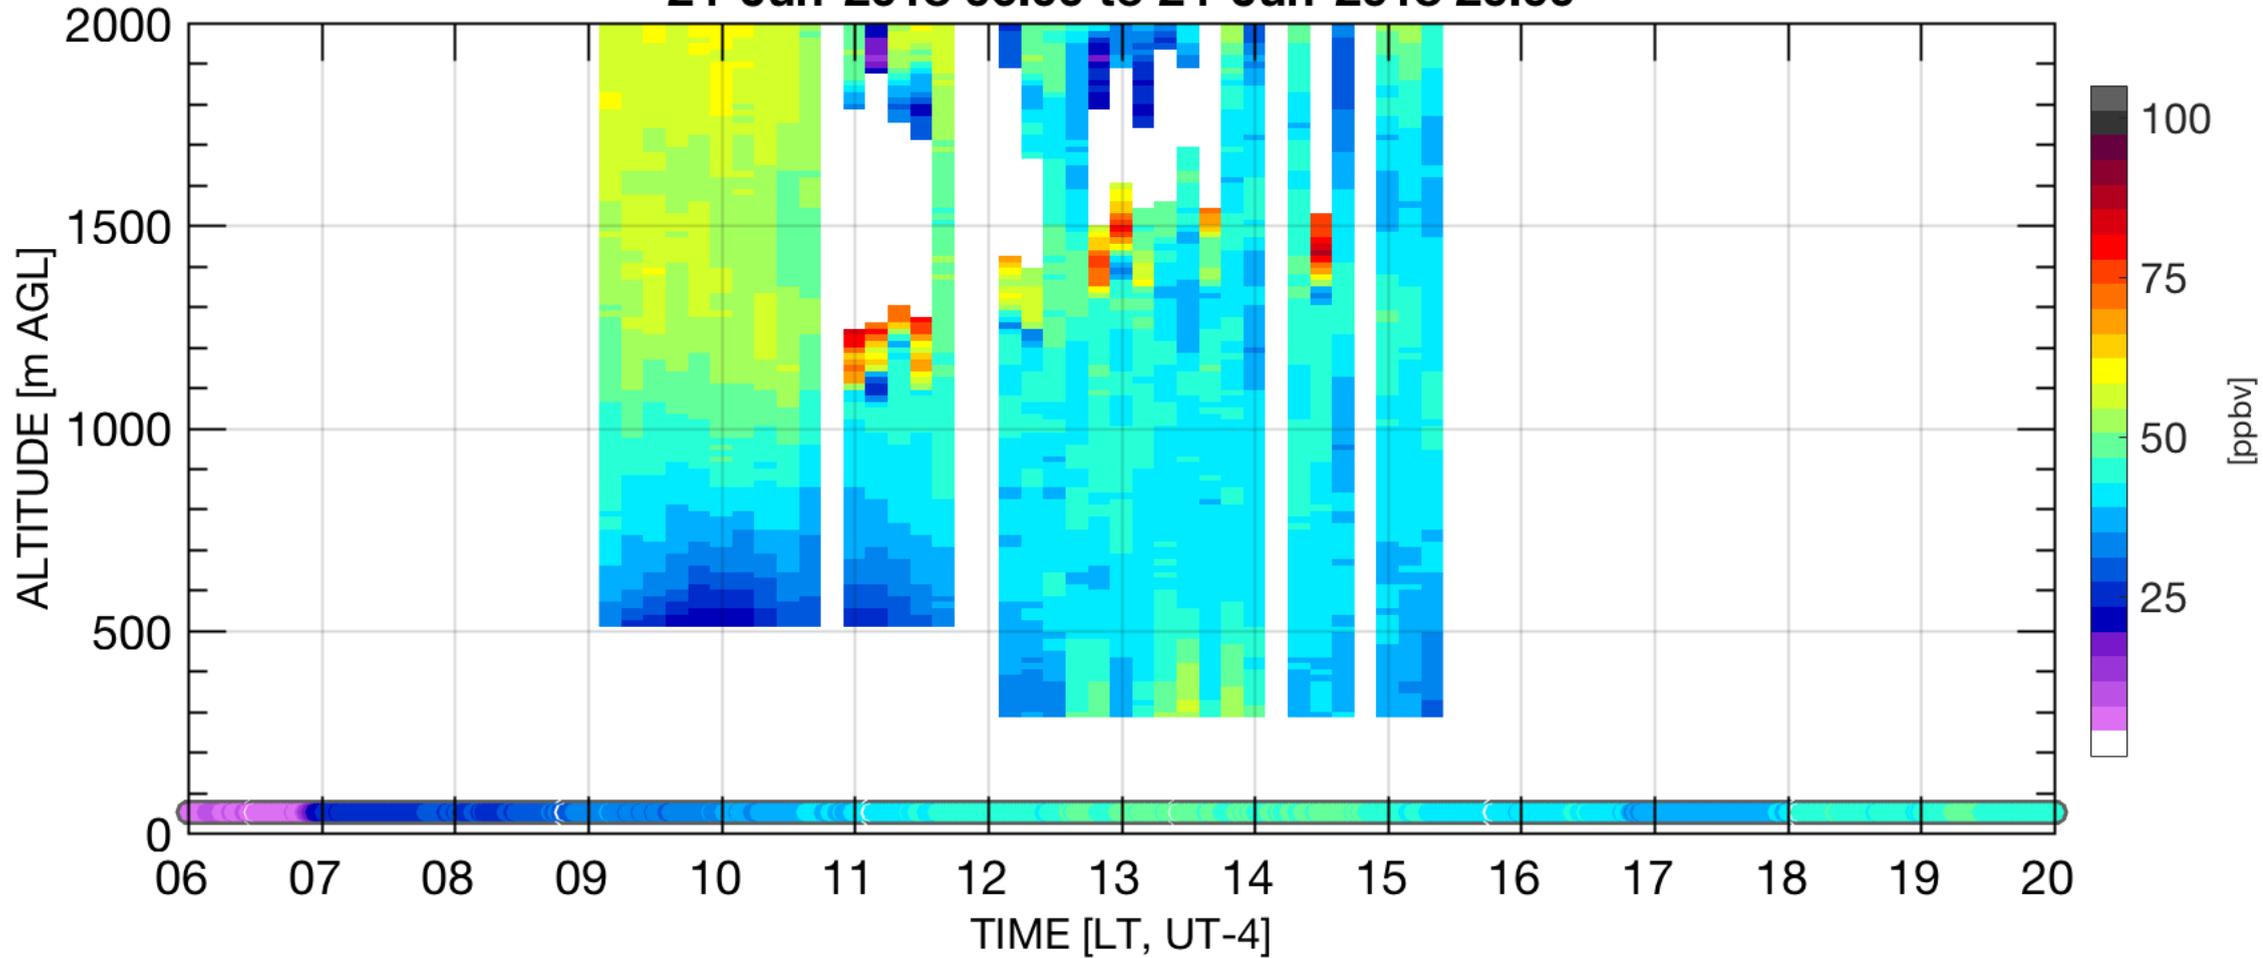

Power was still down, but we were able to get good data from the surface to 2 km. It started to rain at 15:30Z, preventing further operations.

## Weather Station and Ground O3/NO2

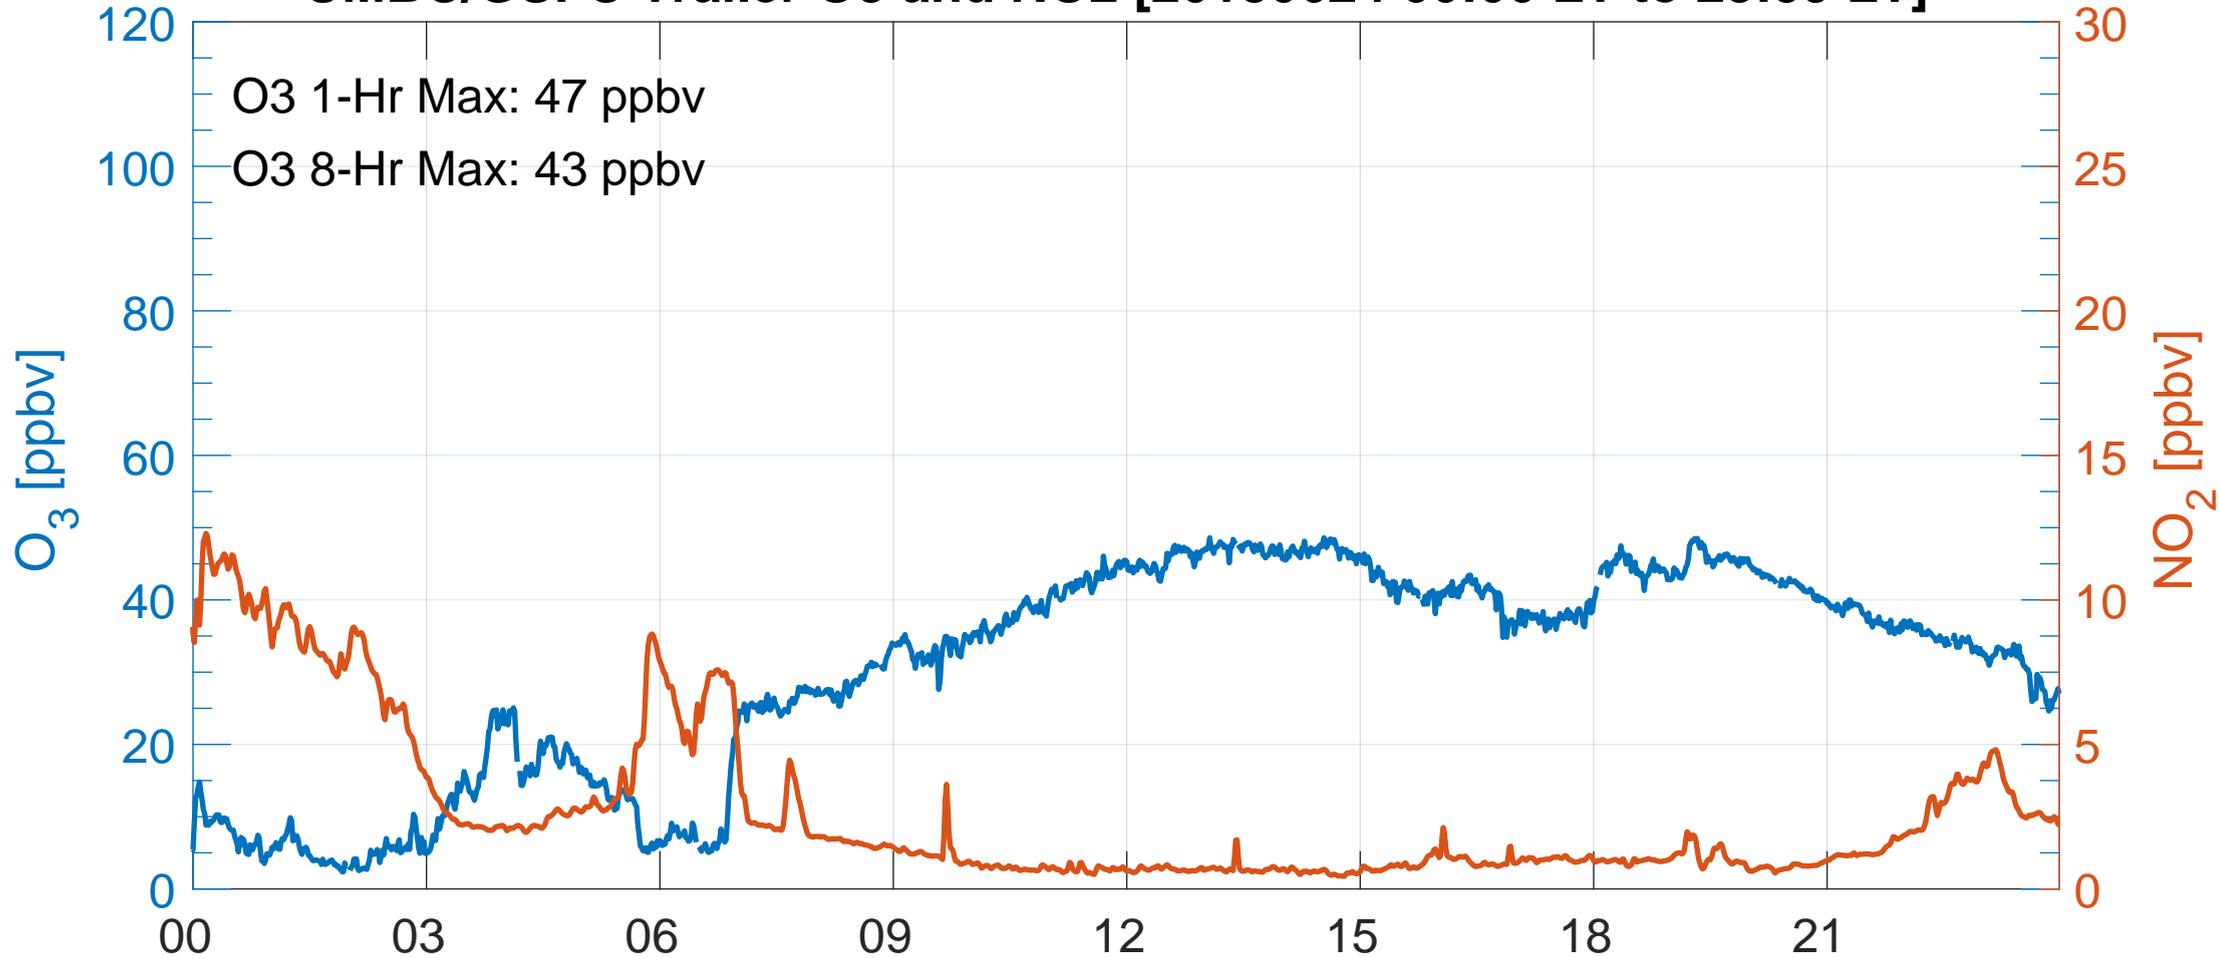

Both the weather station and ground O3 performed nominally. Solar measurements may be off near 10am LT because of reflections off buildings.
